

Online Port Course

**Innovative Integration of
Sustainable Development Goals**

22/03 – 08/04 2022

A smart port connecting smart people

WHY

Sustainable development and environmental management for ports is high on the agenda worldwide. Additionally, big data, artificial intelligence, and other digital transformation & technological solutions are challenging ports to become smarter in the face of today's global climate.

In becoming a pioneer in this environmental and digital transition, it is important for ports to understand the possibilities and added value of smart eco-friendly solutions in operations and port regulations.

WHAT

This course offers a unique mix between adapting smart port technologies to increase your port's efficiency, improve its performance and economic competitiveness on the one hand, and focussing on sustainable development management and environmental policy in a port context on the other hand.

FOR WHOM

Port professionals, port authorities, port consultants, terminal operators who are directly or indirectly engaged in the areas of innovation with an interest in sustainable port development.

This program contains various modules which give the participants a unique opportunity to get in contact with port professionals and companies working in this specific field of expertise.

Course fee: Rs 20.000

The registration fee covers the tuition fee, documentation, workshop and certificate.
(no GST included)

Please note that the registration fee must be received by JNPT-APEC in full; meaning all national and international taxes, bank costs etc. need to be covered by the participant. Kindly take this into account when completing the transfer, as a deficit in the amount received by JNPT-APEC will mean admission to the course will be denied.

Course details can be found on: <http://www.jnptantwerpporttraining.com/>
